

Sixteenth International World Wide Web Conference

May 8-12, 2007

Banff, Alberta, Canada

<http://www2007.org>

In
cooperation
with

The International World Wide Web Conference Committee (IW3C2) cordially invites you to participate in the 16th International World Wide Web Conference (WWW2007, <http://www2007.org>) to be held on May 8-12, 2007 in Banff, Canada. The first WWW conference was held in 1994 at CERN, where the Web was born. Since then, the conference series has become the premier venue for academics and industry to present, demonstrate, and discuss the latest ideas about the Web. The technical program for the five-day conference will include refereed paper presentations, plenary sessions, panels, and poster sessions, as well as tutorials, workshops, and special sessions for Web developers, historians, and visionaries.

IMPORTANT DATES

Submission Deadlines:

Refereed papers:	November 20, 2006 (HARD deadline; no extensions will granted)
Posters:	February 12, 2007 (estimated)
Tutorial proposals:	November 27, 2006
Workshop proposals:	October 20, 2006

Acceptance Notification: Refereed Papers: **January 29, 2007** (tentative)

Conference dates: Tuesday-Saturday, May 8-12, 2007

REFEREED PAPERS

WWW2007 seeks original papers describing research in all areas of the Web. Papers should not have been published or be in submission at another conference or journal. Topics include but are not limited to:

- * Browsers and User Interfaces
- * Data Mining
- * E-Applications
- * Industrial Practice and Experience
- * Performance and Scalability
- * Pervasive Web and Mobility
- * Search
- * Security, Privacy, Reliability, and Ethics
- * Semantic Web
- * Technology for Developing Regions
- * Web Engineering
- * Web Services
- * XML and Web Data

Submissions should present original reports of substantive new work and can be up to 10 pages in length. Papers should properly place the work within the field, cite related work, and clearly indicate the innovative aspects of the work and its contribution to the field. We will not accept any paper which, at the time of submission, is under review for or has already been published or accepted for publication in a journal or another conference. In addition to regular papers, we also solicit submissions of position papers articulating high-level architectural visions, describing challenging future directions, or critiquing current design wisdom. General queries regarding WWW2007 submissions can be sent to www2007questions@iw3c2.org.

All papers will be peer-reviewed by at least three reviewers from an International Program Committee. Accepted papers will appear in the conference proceedings published by the Association for Computing Machinery (ACM), and will also be accessible to the general public via the conference Web site. Authors will be required to sign a copyright transfer form. Detailed formatting and submission requirements are available at <http://www2007.org/>.

Authors of top-ranked papers will be invited to submit enhanced versions of their papers for publication in a special issue of the ACM Transactions on the Web.

The WWW2007 program will also include **Posters, Tutorial and Workshops, Panels, a W3C track** and a **Developers track**.

Program Chairs: Peter Patel-Schneider, Bell Labs Research (USA)
Prashant Shenoy, University of Massachusetts (USA)
